

CONNECTWELL

Live well, save well

The Health Connector for Business's ConnectWell program gives you a chance to save **15%** on the amount you pay towards your business's health insurance premiums while helping your employees improve their health and wellness. Employees benefit too, with the ability to earn a **\$100 reward** when they complete a qualifying wellness activity.

What are the rewards?

- As an employer, you can save up to **15%** on the amount that you contribute toward your employees' health insurance premiums if one-third (33%) of your employees successfully complete one of the program's qualifying wellness activities.
- Your employees will have the opportunity to earn a **\$100 reward** each year when they complete a qualifying wellness activity.

Who qualifies for ConnectWell?

In general, groups with 1–25 employees qualify for the program. If you qualify for ConnectWell, your group will be automatically enrolled in the program the same month that your Health Connector for Business plan starts. Groups are eligible to receive a wellness rebate up to 3 times.

Here's how it works:

- After you've enrolled in a health plan, we'll send you and your employees emails to let everyone know how to participate in ConnectWell.
- After an employee participates in an activity, they will submit some information and documentation through an easy online form. Once approved, they will receive a \$100 pre-paid debit card within a few weeks.
- When one-third of your employees have successfully completed an approved wellness activity, we'll send you an email confirming that your group has met this requirement.
- At the end of your plan year, we'll send you a form to review and sign so we can process your rebate. Once your form is processed, we'll mail you a check with your premium rebate. Note: Each \$100 reward card awarded to your employees will be deducted from your rebate amount. However, if your group does not meet the 33% participation requirement, you will not be responsible for funding those gift cards.
