Website challenges during Open Enrollment 2014 resulted in the system being unable to correctly determine people for ACA-compliant coverage, leading to relatively low enrollment in new ACA plans. Legacy and temporary programs protected and extended coverage to approximately 414,383 people. Based on low program utilization rates to date, the pre-ACA small percentage of uninsured and the state's strong base of employer-sponsored insurance, we believe many people in this enrollment count have moved on to other coverage. Therefore, it is not unreasonable to assume that between 175,000 - 225,000 will need to submit a new application to obtain ACA-compliant coverage.
