- **Active** is defined as the number of members currently enrolled based on when their coverage started (coverage effective date), including those who have been retro- or prospectively-enrolled. For example, a member who enrolls in March for a policy starting April 1 will appear in the April active count.
- **Termed** is defined as the number of members who have left coverage based on when their coverage started (coverage effective date), including those who have been retro- or prospectively-terminated. For example, a member enrolled in a policy with a March 1 coverage effective date who then terminates coverage in July will appear in the March termed count.
- The enrollment line shows the cumulative number of enrolled members, by coverage effective date, as of the date of this report.
