**CCA Board Report Metrics**

**Total Non-Group Medical Enrollment: Current Rolling Quarter**

- **Add** is defined as the total number of members who begin coverage for that month and were not enrolled in coverage during the prior month as of the report date.
- **Term** is defined as the total number of members who are no longer covered for that month and were enrolled in coverage during the prior month as of the report date.
- The enrollment lines show the total number of members who have coverage for that month.
  - **Enrollment as of Report Date** (blue line) is defined as the total number of members with coverage in that month as of the current report date and reflects retroactive adds and terms in the coverage month they take effect. These enrollment counts are dynamic.
  - **Enrollment as of Initial Report Date** (gray line) is defined as the total number of members who were enrolled in coverage as originally reported in the CCA Board Report Metrics published for that month, excluding retroactivity. These enrollment counts remain static month to month to visualize the effect of retroactivity.

**Total Non-Group Medical Enrollment: Year-to-Date**

This report was reformatted in August 2016 with an updated methodology that tracks changes in enrollment (i.e., adds and terms) based on the member’s benefit start date. Previous reports tracked changes in enrollment as of the coverage month they took effect. For example, if an unsubsidized member began coverage in January and then failed to pay her premium for February and March coverage, in April she will be retroactively terminated as of February 1 and she will be reported as a term in the month of February; previously, she would have been reported as a term in April.
