Total Non-Group Medical Enrollment: Current Rolling Quarter**

**Rolling Quarter time span includes previous three months and current month

- “Adds” is defined as the total number of members who begin coverage for that month and were not enrolled in coverage during the prior month as of the report date. Movement between program types is not considered an “Add”.
- “Terms” is defined as the total number of members who are no longer covered for that month and were enrolled in coverage during the prior month as of the report date. Movement between program types is not considered a “Term”.
- The enrollment lines show the total number of members who have coverage for that month.
 - “Enrollment as of Report Date” (blue line) is defined as the total number of members with coverage in that month as of the current report date and reflects retroactive adds and terms in the coverage month they take effect. These enrollment counts are dynamic.
 - “Enrollment as of Initial Report Date” (gray line) is defined as the total number of members who were enrolled in coverage as originally reported in the CCA Board Report Metrics published for that month, excluding retroactivity. These enrollment counts remain static month to month to visualize the effect of retroactivity.

Total Non-Group Medical Enrollment

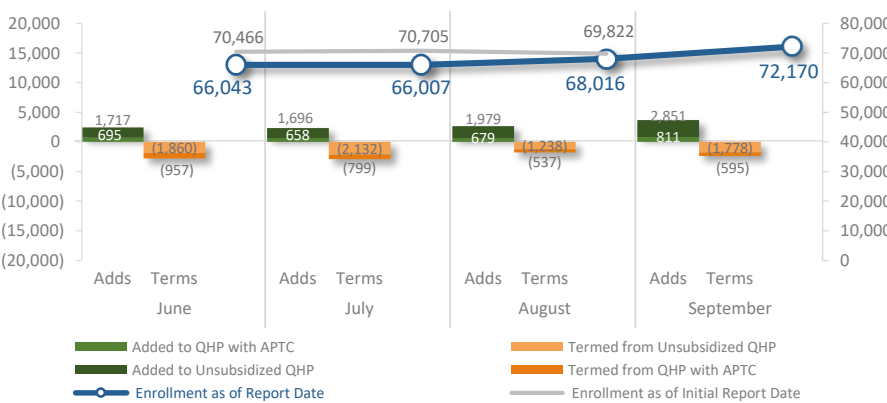

This report was reformatted in August 2016 with an updated methodology that tracks changes in enrollment (i.e., adds and terms) based on the member’s benefit start date. Previous reports tracked changes in enrollment as of the coverage month they took effect. For example, if an unsubsidized member began coverage in January and then failed to pay her premium for February and March coverage, in April she will be retroactively terminated as of February 1 and she will be reported as a term in the month of February; previously, she would have been reported as a term in April.

Non-Group Medical Enrollment – Unsubsidized QHP and APTC

- 52,729 individuals are enrolled in non-group medical Unsubsidized QHP coverage and 17,093 individuals are enrolled in QHP with APTC plans.
- 3,529 members who were enrolled in August ConnectorCare plans are now enrolled in Unsubsidized QHP (2,716) or APTC (813) coverage for September.
- 76% of members are enrolled in either AllWays Health Partners, Tufts Health Direct, or BMC HealthNet Plan.

Non-Group Medical Enrollment – ConnectorCare

- 666 members who were enrolled in Unsubsidized (400) and APTC (266) plans in August are now enrolled in September ConnectorCare coverage.

Small Group Medical Enrollment

Small Group Dental Enrollment*

This report was reformatted in December 2017 to report small group enrollment for the prior coverage month. Group adds and terms represent a point-in-time snapshot of small group membership and do not include membership retroactivity
 *December member and group counts for small group dental enrollment are at the policy-level and reflect the transition of eligible groups to the Health Connector for Business platform.
 ** Member counts by carrier reflect membership on the DCHBX platform
 ***Member counts by benefit level reflect membership on the NTT platform

Customer Experience

Number of Urgent Services Cases Received (Monthly)

The Health Connector and NTT have worked together to determine new call center process flows for Urgent Services cases since bringing all Ombudsman case resolution in-house in February 2019. The Health Connector is working with NTT to determine a new reporting methodology for Urgent Services cases. This will be reflected in the October board report.
