CCA Board Report Metrics

Total Non-Group Medical Enrollment: Current Rolling Quarter**

- **Adds** is defined as the total number of members who begin coverage for that month and were not enrolled in coverage during the prior month as of the report date. Movement between program types is not considered an “Add”.
- **Terms** is defined as the total number of members who are no longer covered for that month and were enrolled in coverage during the prior month as of the report date. Movement between program types is not considered a “Term”.
- The enrollment lines show the total number of members who have coverage for that month.
  - “Enrollment as of Report Date” (blue line) is defined as the total number of members with coverage in that month as of the current report date and reflects retroactive adds and terms in the coverage month they take effect. These enrollment counts are dynamic.
  - “Enrollment as of Initial Report Date” (gray line) is defined as the total number of members who were enrolled in coverage as originally reported in the CCA Board Report Metrics published for that month, excluding retroactivity. These enrollment counts remain static month to month to visualize the effect of retroactivity.

This report was reformatted in August 2016 with an updated methodology that tracks changes in enrollment (i.e., adds and terms) based on the member’s benefit start date. Previous reports tracked changes in enrollment as of the coverage month they took effect. For example, if an unsubsidized member began coverage in January and then failed to pay her premium for February and March coverage, in April she will be retroactively terminated as of February 1 and she will be reported as a term in the month of February; previously, she would have been reported as a term in April.
65,605 individuals are enrolled in non-group medical Unsubsidized QHP coverage and 19,479 individuals are enrolled in QHP with APTC plans.

2,917 members who were enrolled in January ConnectorCare plans are now enrolled in Unsubsidized QHP (2,234) or APTC (683) coverage for February.

78% of members are enrolled in either AllWays Health Partners, Tufts Health Direct, or BMC HealthNet Plan.

3,626 members who were enrolled in Unsubsidized (2,927) and APTC (699) plans in January are now enrolled in February ConnectorCare coverage.

## Questions

- How satisfied are you with how our customer service representative resolved your issue today?
- How friendly and courteous our customer service representative was today?
- How satisfied are you with the knowledge of the customer service representative you spoke with today?
- How satisfied are you with the overall service provided to you by the Health Connector today?
**Customer Experience**

**Number of Internal Call Center Escalation Cases Received (Monthly)**

*The increase in call center escalations cases since November 2019 is due to an increase in reinstatement cases received and a new process developed for members that contact the call center who report unmet medical need.*

**Number of Ombudsman Cases Received (Monthly)**

**Total Open Cases as of 1/31/2020**

- **Call Center Escalations**: 26
- **Ombudsman**: 32
