Contact Center: Implementation Update

VICKI COATES
Deputy Executive Director

Board of Directors Meeting, September 9, 2021
Today’s presentation will provide an overview and status update on the on-boarding of a new contact center vendor, Accenture.

- Overview of the Scope and Services of the Engagement with Accenture
- Key Activities and Timelines for Go-live
- Status of Significant Work-tracks
- Go-Live Readiness

The guiding objective of this project continues to be delivering reliable, best-in-class customer service experience to Health Connector members and members of the public in need of Health Connector services and supports. Staff continue to be focused on successful implementation allowing for a smooth start to Open Enrollment 2022, which begins on November 1st.
Overall Scope and Services at Go-Live

As a refresher, Accenture has been brought onboard to provide the following services:

- Assisting members and Assisters in answering their questions regards eligibility, plan selection, enrollment, billing, payment, how to report a change, and general program inquiries
- Handle all calls in both English and Spanish, and provide translator services for multiple other languages
- Processing documents submitted by members to meet identity proofing requirements and program eligibility
- Outreach and coordination with third party vendors and carrier partners to manage cases and meet turnaround times required for timely access to coverage
- Provide support for members who have immediate medical needs or other issues requiring coordination with the Health Connector Ombudsman Team
- Provide quality assurance and customer satisfaction programs to identify opportunities to improve the customer experience
- Provide workforce management program to forecast and manage call and case activity
Additional Features Available to Members Following Initial Go-Live

Beyond the activities outlined on the previous slide, additional capabilities are planned for a “Day 2” release targeted for late winter/spring. These additional capabilities will include:

Additional Call Quality Monitoring
  • Speech analytics which will allow us to understand the sentiment and trends of customer interactions to drive continuous improvements to the customer experience

Interactive Voice Response (IVR) Self-Service
  ▪ Natural language recognition
  ▪ Scheduled call-back option

Improved Call Routing
  • Skill based routing for members calling about complex issues (e.g., retro enrollment, non-HIX dental, premium billing) to be routed to directly to agents who have more experience and training in that area

Additional Member Communication and Support Channels
  • Email
  • Chat

Go-Live Readiness

Go-live readiness plan:

• Day over day cutover plan scheduled to begin three weeks prior to go-live with move to hour-by-hour planning in final 3 days
• Robust operational support model for first two weeks of go-live will be in place and is being developed

Criteria for go-live are:

• Development and Testing completed and no unresolved, major defects moved to production for IVR or CRM
• At a minimum, all open member cases have been transitioned
• Phone lines ported successfully from incumbent to Accenture
• At least 320 staff hired and trained for planned roles
• All of CMS security controls met
